About Hannah Solar Government Services:

Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business (SDVOSB) leading the way in global energy security by designing and building renewable energy and microgrid systems. HSGS specializes in the design, engineering, construction, and maintenance of solar PV, energy storage, and microgrid systems. Serving government, commercial, industrial, and utility clients, HSGS's breadth of experience includes projects that span the continental United States as well as overseas.

1.16 MW Solar PV Array Central AL Veterans Health Care System Tuskegee, AL

PROJECT DESCRIPTION:

Hannah Solar Government Services (HSGS) was contracted by Ameresco Federal Group to construct a 1.16 MW DC solar photovoltaic (PV) ground mounted array for the US Department of Veterans Affairs at the Central AL Veterans Health Care System - East Campus in Tuskegee, AL. This solar PV project was funded by an Energy Savings Performance Contract, which will reduce the cost of energy used at the Central AL Veterans Health Care System. The solar PV array features Hanwha Q-PEAK DUO modules, FIMER inverters, and an AP Alternative's racking system.
