442.68 kW DC Solar PV System

Target Store
Summerville, SC

*"HSGS delivered an excellent quality final product that was interconnected to both, the end-user client and the electric power distribution system."
-VP of Construction for Greenskis, Giuseppe Perniciaro*

The 442.68 kW DC roof mounted solar PV system was installed by Hannah Solar Government Services for the Target store in Summerville, South Carolina. It features Phonosolar 310W modules connected to Solectria 28W inverters and supported by an Ecofoot mounting system. This system is part of the total 3 MW project for Target Stores across South Carolina.

About Hannah Solar Government Services: Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business specializing in the project development, design, installation, and maintenance of commercial and utility scale solar PV systems and electric vehicle charging stations for government, commercial, and utility clients. All solar PV systems are designed by an in-house engineering team and installed by NABCEP certified solar PV installers.
