**EQUIPMENT SPECIFICATIONS:**  
**MODULES:** Heliene 310W  
**INVERTER:** Solectria PVI-28TL  
**MOUNTING:** Panel Claw Polar Bear III

# 516.5 kW Solar PV System

Target Store  
Lexington, SC

*"HSGS delivered an excellent quality final product that was interconnected to both, the end-user client and the electric power distribution system."  
-VP of Construction for Greenskies, Giuseppe Perniciaro*

The 516.5kW roof mounted solar PV system was installed by Hannah Solar Government Services for the Target store in Lexington, South Carolina. It features Heliene 310W modules connected to (14) Solectria 28kW inverters. This array is supported by a Panel Claw mounting system. This system is one of 7 South Carolina Target stores that will be provided a total of 3MW of power. As of January 2016, this is the largest ballasted rooftop solar array constructed in South Carolina.

**About Hannah Solar Government Services:**  
Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business specializing in the project development, design, installation, and maintenance of commercial and utility scale solar PV systems and electric vehicle charging stations for government, commercial, and utility clients. All solar PV systems are designed by an in-house engineering team and installed by NABCEP certified solar PV installers.
