Department of Veterans Affairs Preventative Maintenance for 1.4 MW Solar PV System

C.W. Bill Young VA Health Care System,
Bay Pines, FL

Hannah Solar Government Services (HSGS) was selected by the Department of Veterans Affairs (VA) to perform the one time inspection and preventative maintenance on 1.4 MW's of parking canopies and roof mounted solar arrays spread over five sites at the C.W. Bill Young VA Health Care System in Bay Pines, FL. Services provided by HSGS for the inspection and maintenance of these solar arrays include: voltage and current tests for strings and combiner boxes, thermal imaging to identify hot spots, torque checks on panels, racks, mounting systems, and cable fasteners, inspection of all data acquisition monitoring systems, and electrical tests on all solar panels, inverters, and transformers.

About Hannah Solar Government Services:

Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business specializing in the project development, design, installation, and maintenance of commercial and utility scale micro-grid solar PV systems with battery storage for government, commercial, and utility clients. All solar PV systems are designed by an in-house engineering team and installed by NABCEP certified solar PV installers
