

# HANNAH SOLAR GOVERNMENT SERVICES

## OVERVIEW:

**DESIGNER:** Hannah Solar Government Services

**INSTALLER:** Hannah Solar Government Services

**CUSTOMER:** Government

**TYPE OF CUSTOMER:** Government

**OWNER:** Center for Disease Control and Prevention

**LOCATION:** Atlanta, GA

**SYSTEM CAPACITY:** 9.4 kW DC

**INSTALLATION TIME:** 1 Week

**COMMISSION DATE:** April 2016

### EQUIPMENT SPECIFICATIONS:

**MODULES:** SolarWorld SW 260/265

**INVERTER:** SMA Sunnyboy

**MOUNTING:** Ironridge Racking System

## 9.4 kW DC Solar PV System

Centers for Disease  
Control and Prevention  
Atlanta, GA

The HSGS team designed and installed the first solar photovoltaic (PV) system for a CDC facility. The system consists of 36 solar panels mounted to the roof using an Ironridge racking system. The array was custom designed to sit atop an existing walkway that leads to the entrance of the Visitor's Center and Museum. The solar PV system delivers 9.4 kW DC of clean power to the campus.

### About Hannah Solar Government Services:

Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business specializing in the project development, design, installation, and maintenance of commercial and utility scale solar PV systems and electric vehicle charging stations for government, commercial, and utility clients. All solar PV systems are designed by an in-house engineering team and installed by NABCEP certified solar PV installers.
