PROJECT DESCRIPTION:

Hannah Solar Government Services (HSGS) was contracted by TL Services, LLC to provide monitoring and maintenance services for a 410 kW solar PV parking canopy array at the Eugene J. Towbin VA Healthcare Center in North Little Rock, AR. Services provided by HSGS include: voltage and current tests for strings and combiner boxes, I-V curve tracing, torque checks on panels, racks, mounting systems, and cable fasteners, and visual inspection of structural, mechanical, and electrical components

About Hannah Solar Government Services: Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business (SDVOSB) leading the way in global energy security by designing and building renewable energy and microgrid systems. HSGS specializes in the design, engineering, construction, and maintenance of solar PV, energy storage, and microgrid systems. Serving government, commercial, industrial, and utility clients, HSGS’s breadth of experience includes projects that span the continental United States as well as overseas.
