Juana Diaz, Puerto Rico

"The HSGS team's communication has been very good. Their staff is knowledgeable, professional, and committed to ensuring that they meet contractual obligations."

*-Johnson Controls Senior Project Manager,
Steve Hubsch*

The 939.9 kW ground mounted solar PV system installed at the Ft. Allen in Juan Diaz, Puerto Rico provided by Hannah Solar Government Services features Sunivia 325W modules connected to a Solectria 500 & 250 kW inverter. The array is supported by a RBI Solar ground mounted system. Hannah Solar Government Services designed, engineered, and built the solar array.

About Hannah Solar Government Services:

Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business specializing in the project development, design, installation, and maintenance of commercial and utility scale solar PV systems and electric vehicle charging stations for government, commercial, and utility clients. All solar PV systems are designed by an in-house engineering team and installed by NABCEP certified solar PV installers.
