### EQUIPMENT SPECIFICATIONS

- **MODULES:** Heliene 72M-365W
- **INVERTER:** SMA Sunny Tripower Core 1 & Sunny Boy
- **MOUNTING:** RBI Solar

# 592.5 kW DC Solar PV Systems

## Department of Veterans Affairs Biloxi VA Medical Center Biloxi, Mississippi

### PROJECT DESCRIPTION:

Hannah Solar Government Services (HSGS) was contracted by the Department of Veterans Affairs to design and construct a 550 kW DC parking canopy solar PV system, a 40 kW DC rooftop PV system, and a 2.5 kW DV electric scooter station at the Biloxi VA Medical Center in Biloxi, Mississippi. This is the 4th energy project to be constructed for the VA by HSGS. HSGS was the prime contractor for this project and managed all aspects of the project as well as design and install.

### About Hannah Solar Government Services:

Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business (SDVOSB) leading the way in global energy security by designing and building renewable energy and microgrid systems. HSGS specializes in the design, engineering, construction, and maintenance of solar PV, energy storage, and microgrid systems. Serving government, commercial, industrial, and utility clients, HSGS's breadth of experience includes projects that span the continental United States as well as overseas.
