

HANNAH SOLAR GOVERNMENT SERVICES

OVERVIEW:

DESIGNER: Hannah Solar Government Services

INSTALLER: Hannah Solar Government Services

CUSTOMER: GEL Group

TYPE OF CUSTOMER: Commercial

OWNER: GEL Group

LOCATION: Charleston, SC

SYSTEM CAPACITY: 75 kW DC

INSTALLATION TIME: 2 Weeks

COMMISSION DATE: July 2016

EQUIPMENT SPECIFICATIONS:

MODULES: Canadian Solar 310W

INVERTER: SMA 12 kW

MOUNTING: Unirac

About Hannah Solar Government Services: Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business specializing in the project development, design, installation, and maintenance of commercial and utility scale solar PV systems and electric vehicle charging stations for government, commercial, and utility clients. All solar PV systems are designed by an in-house engineering team and installed by NABCEP certified solar PV installers.

GEL

75 kW DC Solar PV System

The GEL Group
Charleston, SC

"We are happy to have contracted with HSGS on this project. Both systems were commissioned in September and are expected to generate over \$300,000 in utility bill savings over the next twenty-five years."

-The GEL Group Vice President, Mac Hodgson

The HSGS team designed and installed two roof mounted solar PV systems for The GEL Group in Charleston, South Carolina. This system features Canadian Solar modules that are connected to an SMA inverter and supported by a Unirac mounting system. The GEL Group will receive credits from SCE&G under their Bill Credit Agreement for the energy the solar produces.
