120 kW Solar PV System

EC-130, Davis-Monthan Air Force Base
Tucson, AZ

The 120 kW ground mounted solar PV system installed at Davis-Monthan Air Force Base in Tucson, AZ provided by Hannah Solar Government Services features SolarWorld 280W modules connected to (1) x 24 kW SMA inverter and (4) x 20 kW SMA inverters. The array is supported by a Schletter FS ground mounted system. Hannah Solar Government Services designed, engineered, and built the solar array. This renewable energy system will generate more than 214,800 kW hours annually.

About Hannah Solar Government Services:

Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business specializing in the project development, design, installation, and maintenance of electric vehicle charging stations and commercial and utility scale solar PV systems for government, commercial, utility, and residential clients. All solar PV systems are designed by an in-house engineering team and installed by NABCEP certified solar PV installers.
