About Hannah Solar Government Services:

Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business (SDVOSB) leading the way in global energy security by designing and building renewable energy and microgrid systems. HSGS specializes in the design, engineering, construction, and maintenance of solar PV, energy storage, and microgrid systems. Serving government, commercial, industrial, and utility clients, HSGS's breadth of experience includes projects that span the continental United States as well as overseas.

U.S. Embassy Dakar Annual Maintenance of the Photovoltaic System Dakar, Senegal

Hannah Solar Government Services (HSGS) was contracted by the U.S. Embassy Dakar to perform preventative maintenance for two solar PV systems totaling 303 kW on the Service Annex and Parking Facility of the U.S. Embassy Compound in Dakar, Senegal. HSGS will be providing maintenance services annually for the next five years at the U.S. Embassy Dakar. These services include, visual inspections of structural, mechanical, and electrical components, system electrical tests, I-V curve trace measurements, modules cleaning, and torque checks.
